

Blue Two™ series

BonnieRobin Mariela Watau

In the spirit of *The Goal* by Eli Goldratt and *The Deadline* by Peter DeMarco, the Blue Two™ series is a collection of “business fables” that teaches in narrative format. By immersing readers as participants in the day-to-day lives of the characters, learning takes place transparently and organically, just as in real life.

BonnieRobin has crafted literally hundreds of *teachable moments* into a compelling narrative with a specific purpose: evangelizing the eternal message that love is essential for communication. Not just between spouses but everyone you and I encounter everyday. Be they butcher, baker or satellite maker, people have to trust us to tell us what we need to hear rather than what they think we want to hear.

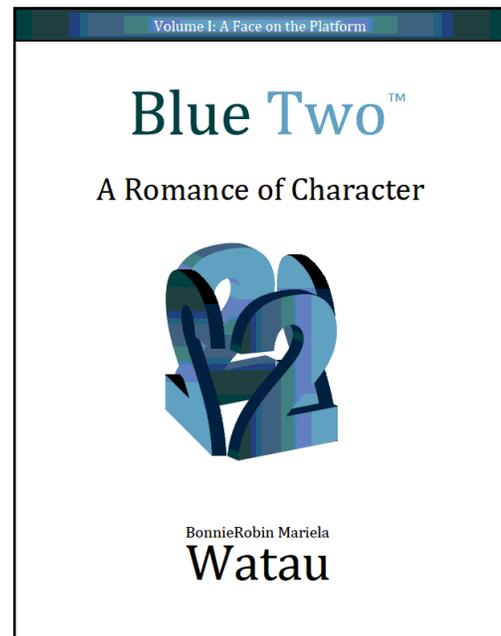

In her first “business fable” involving intrigue, international travel and high tech, the romance blossoms like flowers after a spring rain. Boy meets girl. Sports, cooking & music, who could ask for anything more? After a profoundly transformative week on a Caribbean island, Patricia realizes Courtney is a “*man out of time*” destined to fulfill her deepest longings to not merely survive the competitive world of international business, but to *thrive in the world they co-create at work, at play and at home.*
