Enchiridion Texanæ
The Little Book of Texas-size faith

Matthew E. Weilert

Of all the blessings in Texas, the greatest one is the people themselves. With a God-given abundance of both sea and sky, Texans realize that they must prepare for the inevitable storms of life before they're even on the horizon. When lightning strikes, there's no time seek shelter.

Whether you're privileged to live here or just wish you did, Texans live out their faith vibrantly. Enchiridion is late Latin for "little book" and inside, we take a Lone Star stroll through some of the most important church documents. Also included are secular references that support the formation of good character, to enliven and enrich your personal journey.

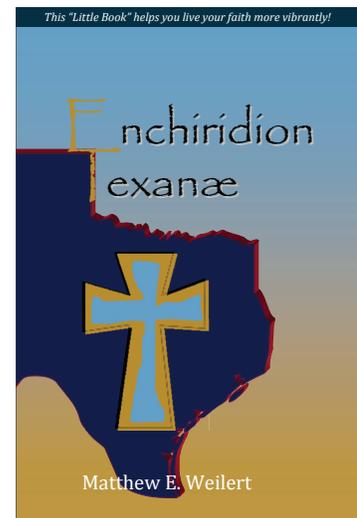

"Matt has an uncanny ability to cut right to the heart of an issue with razor-sharp insight. Combining extensive research with practical advice, he delivers a detailed roadmap to navigate through the treacherous landscape of our secular culture. *His passion for the Catholic faith is highly contagious. Catch the fever!*"

Patrick Ryan, Relevant Radio® Station Manager,
KIXL 970 AM, Austin, Texas

faith-based groups!*

ABOUT THE AUTHOR

Matthew E. Weilert, (Texas A&M '84), helps leaders and the people they serve, to achieve profound clarity in seeing beyond the commonplace to exceptional achievement, through the lens of faith. Advising billion-dollar brands like Kraft, Coca-Cola, Bacardi, GM & the US Navy on what it takes to go from "good to great" in performance improvements (ops & finance), Matt is a "global mindset thinker" (Thunderbird 2011), who has the privilege of working with networks of leaders across industries (see <http://globe.systemkey.net>) to deliver better results across the board.

Building Himinbjörg™ 19 Elements that Make a Systems-built Home Unique

Matthew E. Weilert

Imagine a house where your furnishings adapted to you and your needs instead of “picking what’s available.” Now imagine this was available to ordinary mortals and not just the stratospherically super-rich.

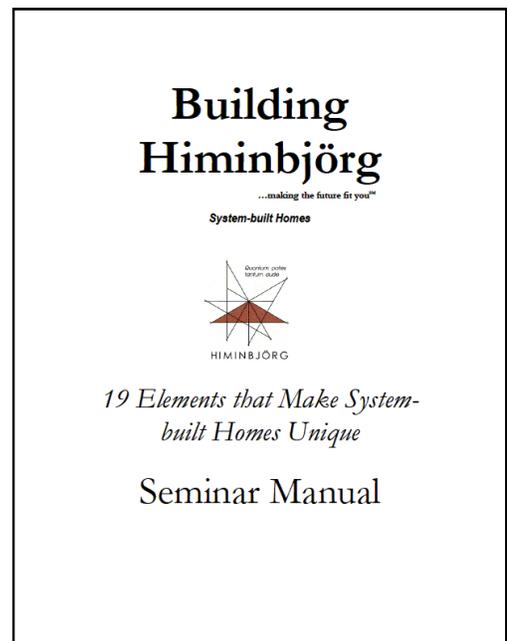

Imagine Himinbjörg™

The Versatile Furnishings SystemSM (VFS) is “...as versatile as you areSM” with fixtures, furnishings and furniture easily adapting to your changing needs not just at the time of construction, but at the time you actually need it, be that daily, weekly or for a seasonal event.

Himinbjörg (“Sky Mountain” in English) is the castle guarding the bridge between heaven and earth, as related in ancient Norse sagas. We chose this name because having a house that ergonomically adapted to our bodies and our lifestyles would be like the bridge to heaven. So after much research, live builders tests in Southern Minnesota and extended discussions with expert craftsmen and fixture representatives, we decided to evangelize these precepts with a new line of versatile, adaptable fixtures and home furnishings that can turn your house into a home that’s much closer to heaven on earth. A Himinbjörg systems-built home brings 19 key advantages that deliver a more healthy, more eco-friendly lifespace at a quarter of the annual environmental cost of a conventionally-built home.

Available via the Building Himinbjörg Seminar
